04 - Ablation analysis

November 3, 2026

1 Introduction

This documents presents the ablation analysis which has been conducted on the `FMA_small` dataset [1]. In a previous document, named "first model comparison", different classes of model have been trained on this dataset. The best 3 classes (and there best configuration) have been selected as promising models. Those 3 models are a SVM, a HGB and a MLP classifier. Par
